CAREER OBJECTIVE

A third-year B-Tech student of Artificial Intelligence and Machine Learning (CSE-AI&ML) with strong programming skills and a passion for problem-solving. My academic projects and internships have helped me develop technical abilities and critical thinking. I am eager to use my knowledge in a software engineer role, contributing to effective and innovative solutions.

EDUCATION

GMR Institute of Technology Artificial Intelligence and Machine Learning(CSE-AI&ML) CGPA (Until Semester 4): 8.3	Rajam, Andhra Pradesh September 2023 - Present
Sri Chaitanya Junior College Intermediate, MPC CGPA: 9.17	Visakhapatnam, Andhra Pradesh June 2021 - April 2023
Chaitanya High School Secondary School Certificate CGPA: 10	Visakhapatnam, Andhra Pradesh June 2020 - April 2021

EXPERIENCE

Full Stack Development Intern Datavalley India Pvt. Ltd, Visakhapatnam	June 2025 – June 2025
- Gained hands-on experience in Python-based full stack development covering both frontend and backend. - Built responsive web applications using HTML, CSS, JavaScript, and Bootstrap for the client-side. - Developed RESTful APIs and server-side logic using Python (Flask/Django) and integrated with MySQL databases. - Implemented CRUD operations, authentication, and data validation features for scalable applications. - Deployed applications and performed debugging to ensure performance and security.	

TERM PAPER

Deep Learning for Scene Text Detection in Natural Images : A Comprehensive Review Academic Project	2025
- Researched deep learning methods for scene text detection in natural images. - Reviewed and compared state-of-the-art models (EAST, CTPN, TextBoxes++ etc.). - Studied challenges like multi-oriented text, noise, and low resolution. - Summarized datasets and evaluation metrics used in text detection. - Wrote a comprehensive review highlighting future research directions.	

PROJECTS

Movie Verse: Search & Discover Films

- Designed and developed a responsive movie search web application to help users discover films easily.
- Integrated the OMDb API to fetch real-time data including movie titles, posters, ratings, and descriptions.
- Implemented search and filter functionality for movies by title, genre, and release year.
- Utilized DOM manipulation and JavaScript event handling for dynamic content updates.
- Enhanced UI/UX with responsive layouts ensuring compatibility across devices.
- Deployed the application for public use, enabling seamless access and version control.

Connect Four Game

- Developed a web-based Connect Four game with interactive UI and smooth gameplay mechanics.
- Implemented core game logic including turn-based play, win detection (rows, columns, diagonals), and draw handling.
- Utilized JavaScript event listeners and DOM manipulation for real-time updates to the game board.
- Added features like reset functionality and dynamic highlighting of winning sequences to enhance user experience.

SKILLS SUMMARY

- **Languages** C, Python, Java, SQL
 - **Frameworks** Pandas, Numpy, Matplotlib
 - **Platforms** Jupyter Notebook, Visual Studio Code
 - **Tools** Excel, Word, PowerPoint, MySQL
 - **Soft Skills** Problem Solving, Critical Thinking, Team Collaboration, Leadership
-

CERTIFICATES

- Python Essentials 1,2 – Cisco
 - Data Analytics Job Simulation - Deloitte
 - SQL Basic , Intermediate – HackerRank
 - Data Visualisation - Tata
-

LANGUAGES KNOWN

Telugu

English

Hindi

STRENGTHS

- Communication
 - Teamwork
 - Patience
 - Problem Solving
-

HOBBIES/INTERESTS

- Listening to music
 - Watching movies
-

DECLARATION

I hereby declare that all the details mentioned above are in accordance with the truth and fact as per my knowledge and I hold the responsibility for the correctness of the above-mentioned particulars.
